

**Canadian Association
of Fleet Supervisors**

Safe Operation and Maintenance of Commercial Vehicles

Canadian Association of Fleet Supervisors (CAFS) has been fortunate enough to have Dan Boyer provide presentations at several of our General Meetings. Dan is an excellent Guest Speaker and has always provided our guests with solid information in an interesting format. In addition, we have been fortunate enough to have also used Dan to instruct some of our training courses, which were always presented in much the same way....good accurate information, presented in a manner the students are intent on listening to. Thanks for all your contributions to our Association Dan, and for the valuable information you have been able to pass on to our members.

Sincerely,

Lori Steele
